

INVO Switchable & Adjustable LED Round Panel

Introducing our new multi wattage and CCT switchable INVO LED Round Panel. Simple dip switches on the driver allow you to choose the wattage (12/15/18 watt) and CCT (3000k/4000K/5000K). A sleek, versatile and easy to fit adjustable solution that will fit cut outs from 65mm – 190mm. This panel offers a lumen efficiency of 130 Lumens per Watt. The very efficient LED means you can use a far lower powered LED fitting to produce equal, if not better, light levels than those already in place, coupled with our market leading 5 year warranty, you get peace of mind, fantastic lighting and incredible paybacks.
