

INVO Switchable LED SKY Panel

Introducing our new multi wattage and CCT switchable INVO LED SKY Panel. Simple dip switches on the driver allow you to choose the wattage (25/35/40/50W) and CCT (3000k/4000K/5000K). A sleek, versatile and easy to fit solution either within a grid system or on a solid ceiling using a mounting kit. This panel offers a stable lumen efficiency of 160 Lumens per Watt. The very efficient LED means you can use a far lower powered LED fitting to produce equal, if not better, light levels than those already in place, coupled with our market leading 5 year warranty, you get peace of mind, fantastic lighting and incredible paybacks.

- > CCT Switchable 3000k/4000k/5000k
- > Selectable wattage output
26/30/35/40W
- > 5 Year warranty
